Press Note

COMPREHENSIVE SCHEME OF WATER-SUPPLY TO ALL MUNICIPAL TOWNS.

Expeditious Execution Proposed.

Representations have been made from time to time to Government by the Municipal Councils in the State that in view of their limited resources they are unable to take up improvement works without governmental aid by way of grants or loans. This question has been considered in all its aspects by Government. With a view to having a clear idea of the various improvement works which the municipalities wanted to undertake, Government requested them to indicate the expenditure which they had to incur for (1) water-supply, (2) drainage, and (3) other improvement works. A consolidated statement of the expenditure on behalf of each municipality in the State was prepared on the basis of the information obtained from the several municipal councils. The total amount that would be required for the above works in the State is more than

rupees 5 crores and 20 lakhs. Government have carefully examined all these schemes and have come to the conclusion that topmost priority should be given to the execution of water-supply schemes. The matter was placed before the last session of the Legislature also and a supplemental grant of Rs. 50 lakhs was voted for the above purpose. This allotment is now proposed to be distributed during this year amongst several municipal councils as a loan. The basis for the distribution would be that all estimates amounting to Rs 50,000 and below would be sanctioned in full, estimates exceeding Rs. 50,000 but below Rs. one lakh would be sanctioned half the estimate and those exceeding one lakh would be sanctioned one-fourth of the estimated cost. This loan will be distributed to all the municipal councils on condition that the loan is repayable within a maximum period of 15 years, that interest at 5 per cent per annum will be charged and that provision will be made in the budgets of the municipalities for the repayment of loans which will be a first charge on the municipalities.

This is perhaps the first instance in the country where a State has undertaken such a comprehensive and all-out scheme for the improvement of water-supply in all the municipal areas in the State. With the rapid expansion of industry and the increase in population, the need for such a scheme has been evry acutely felt and although in the past several efforts at tackling this problem were undertaken, they were rather haphazard in manner. It is now hoped that this comprehensive scheme of assistance to all the municipalities will go a long way in solving the problem of water-supply in all the towns.

Government are very anxious to see that this scheme is put into execution immediately and completed within a period of three years. The balance of the loan in respect of each municipality will be sanctioned in the coming years as and when work in that individual area progresses. The Accountant-General has been requested to permit municipal councils to draw the loan amount now sanctioned during the course of the year 1952-53, provided the councils concerned agree by a specific resolution to abide by the terms of the loan. The Chief Engineer of Mysore has be n requested to obtain technical sanction to the estimates for the water-supply schemes within one month. After technical sanction is accorded, tenders will be called for within 15 days from the date of sanction, and all the works will be started during the first week of February 1953 All the concerned officers have been told that there should be no delay in the execution of the scheme. Deputy Commissioners of districts have been requested to see that the loans are drawn by the municipalities and placed at the disposal of the Public Works Department immediately and to take such action as is necessary for completing the work with the maximum amount of expeditiousness. The Commissioner for Local Self-Government has been requested to watch the progress of works done and to intimate the Government by the 10th of every month the progress achieved in the previous month.

The whole allotment of Rs. 50 lakhs has been distributed as per the statement appended to this note. It is hoped that the municipalities will now take advantage of the facility offered to them and speedily push through their water-supply improvement schemes.

Press Note.

In pursuance of the Government Order No. T. 2384-94—R.T. 28-52-6, dated 21st October 1952, the Mysore Government Road Transport Department has made necessary arrangements to monopolise the *six routes* noted below.* Government services have been running in all these routes already along with private services. Under the new set up, Government services will be concentracted on these routes, frequency of the services depending on the need of the travelling public. Wherever it is deemed not necessary, services have been withdrawn (from non-monopoly routes) or curtailed keeping in view the adequacy of existing road passenger transport services. To facilitate the through passengers some services will run beyond the Monopoly routes.

*(1) Bangalore—Kolar Gold Fields.
(2) Bangalore—Devanahalli.
(3) Bangalore—Dodballapur.
(4) Bangalore—Tumkur *via* Nelamangala.
(5) Bangalore—Bellur *via* Nelamangala and Kunigal.
(6) Bangalore—Gundlupet *via* Ramanagaram, Maddur, Mysore and Nanjangud.

At present, 93 buses are operating covering a mileage of 11,200 per day.

Under the new set up 95 buses will be operated with effect from 1st January 1953 covering a route mileage of 332 on the monopolised routes and 746 on the non-monopolised routes. The total mileage per day will be 11,174.

The buses have been distributed as under:

The Bangalore—Mysore route was almost monopolised and therefore the 21 buses have been retained. On the Mysore—Gundlupet Section 9 buses will run out of which 6 give direct connection in place of private services to be eliminated to Ooty and Calicut and 3 for the intermediate passengers. On the Mysore—Nanjangud Section 3 buses will run 25 shuttle services in place of private services stopped. In all 20 buses halt in Mysore daily. Eleven buses were already running on the Bangalore—Bellur Section. Beyond Bellur, two to Hassan and one to Chickmagalur and two to Mysore Services have been detained. Sixteen buses will run on this section. Out of the 5 extra buses 3 are meant for the through passengers and two for intermediate passengers. On the Bangalore—Tumkur Section 21 buses will run as against 19, the 2 extra being in place of two private services stopped, 2 more buses have been added making 8 additional shuttle service in Bangalore—Dodballapur Section. Similarly, on Bangalore—Devanahalli Section, 3 buses have been added to make 8 shuttle services.

On the Mysore—Gundlupet Section arrangements have made with private services connecting Ooty and Calicut to give preference to through passengers on either side.

Booking Offices are proposed to be opened at Traffic Centres like Kolar, Tumkur, Bellur, Chitaldrug and Gundlupet in addition to the existing one at Mysore.

Action is being taken to provide shelters to the passengers where passengers have to be transhipped and have to wait for buses.

Arrangements have also been made to carry mails on the monopoly routes in consultation with the Senior Superintendent of Post Offices.

Monopolisation is the essence of Nationalisation. Implementing monopoly on 6 routes is the first experiment. A tentative list of routes and timings have been notified in MRT/Adm/6087—52-53, dated 25—26th December 1952. The situation will be carefully studied and whenever there is need for additional trips they will be undertaken and unnecessary trips will be cancelled or curtailed. This type of arrangement will give facilities to the travelling public. There should not be much difficulty in handling the traffic as the Government Services have all along been running in these six routes. Twenty-five buses have been kept as spares to meet any emergency.

The enlightened public of Mysore are requested to co-operate with Government in the Scheme and make it a success.

Subject:—Delay in Clearance of Consignments.

No. S.P.C. 41891-990. In enclosing herewith a copy of the G. O. No. S.R. 5012-13—S.P.C./5-52-2, dated 9th December 1952, approving the proposal of the Secretary, Stores Purchase Committee, to empower him to accept transit dues irrespective of amount and time involved, I am directed to state that the Government have directed the Stores Purchase Committee to furnish quarterly statements showing the necessary details of cases of delay of over one month with needful explanations. It is observed that much of delay in clearance is caused by the Departments, sometimes, in not furnishing the Clearing Agents with the requisite information immediate on request. As a result the incurring of transit dues has become an unavoidable factor causing considerable loss to Government. It is therefore requested that all the Indenting Officers will see that no such delays will be caused in transmission of the information required by the Clearing Agents, and to treat always the Clearing correspondence on a "Top Priority" basis.

CONTROL OVER MILLETS IN THE MYSORE STATE.

In consonance with the revised policy of the Government of India relating to millets and other coarse grains for 1952-53, the present restriction on the export of millets from any place in the Mysore State to any place outside the Mysore State will continue as provided by the Foodgrains Export Control Order, 1948. By the issue of the Paddy Acquisition (Harvest) Order, 1952 and the repealing of the Articles of Food Acquisition (Harvest) Order, 1949, all restrictions on the movement of millets within the State are removed.

But so far as statutorily rationed areas in the Mysore State are concerned, millets continue to be rationed commodities and the transactions in millets by people other than authorised dealers are prohibited under clause 5 of the Mysore Rationing Order (Food) No. 2.

It is therefore ordered that the free movement of millets (ragi, jola and milo) from and into the statutorily rationed areas is prohibited except for the movement of a quantity not exceeding five seers per adult for *bona fide* personal consumption. The Mysore Rationing Order (Food) No. 2 has been suitably amended.

OFFICE OF THE COMPILER, *MYSORE GAZETTE*, BANGALORE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matters intended for publication in Parts I, II, III, IV, V and VI should therefore reach this office not later than *Monday Evening*, and that for Part II not later than *Tuesday Evening* for the following Thursday's issue of the Gazette. All matters received later than these days will be kept by for insertion in the following issue of the Gazette. (G. O. No. P. 988-1040— P & S. 12-30-2, dated 26th July 1930.)

2. (i) Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its re-setting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect stating the number of copies should be made at foot of such manuscript.

(ii) Indents for less than 100 spare copies should not be sent to the Press, subject to the exceptions contained in G. O. No. G. 14330-95—P. & S. 5-19-9, dated 23rd December 1919, in regard to notices calling for tenders for the purchase of stores or for the execution of works. When a few copies only are required, they may be made available by the use of carbon sheets simultaneously with the preparation of a copy for the Gazette, as laid down in the above Government Order. (Letter No. G. 10382—P. & S. 9-37-2, dated 30th June 1938, received from the Secretary to Government, Development Department.)

(iii) When indents for an unusually large number of spare copies are sent, such instances will be brought to the notice of Government, as per letter No. G. 10382—P. & S. 99-37-2, dated 30th June 1938, received from the Secretary to Government, Development Department.

3. Matter sent for insertion in the Gazette will be published *only once* and the abstract in two issues. (G. O. No. G. 2915-6—P. &. S. 44-25-2, dated 13th September 1926).

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. As per G. O. No. E. 1892-1902—P. & S. 12-23-13, dated 8th December 1923, and G. O. No. 5139-95—P. & S. 52-30-1, dated 12th November 1930, the English or the Kanarese portion of the *Mysore Gazette*, consisting only of the five Parts, *viz.*, I, II, III Section 1, III Section 3, IV and V taken together or an entire copy of the English or Kanarese Gazette containing all the parts will be supplied only to Patels, Nad-Patels, Shanbhogs and Sheikdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time or that he is on leave for a period not exceeding three years. Such subscribers will please note that the Gazette cannot be had *in separate parts* at concession rates under any other conditions and that they have to pay the full subscription for the part or parts required.

6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such money should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap will not receive attention ; and no communication should be sent on Government Service by private parties.

9. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

Press Note.

The following communication of the High Commissioner of India in U.K., London, offering advice to non-official visitors of India proposing to visit London for the Coronation of H. M. Queen Elizabeth II and connecting events in London in May and June 1953, is published for general information.

Coronation of H.M. Queen Elizabeth II and Connecting Events, London—May and June 1953.

NON-OFFICIAL VISITORS FROM INDIA.

The High Commissioner has been able and happy to extend in past years to non-official visitors from India the services of his administration when advice or assistance was sought in connection with some problem arising out of their stay. Owing to the immense number of visitors, both official and otherwise, from all parts of the world who are expected to visit England for the Coronation during the Spring and Summer of 1953, special difficulties are expected to be encountered in the matter of accommodation, sea passages to this country and back, etc. For the guidance of the visitors from India, it is felt that the following information would be of considerable help.

HOTEL OR LIVING ACCOMMODATION.

From enquiries made in reasonable quarters, it has been ascertained that all accommodation in the London hotels has already been taken up for the period prior to and subsequent to the date of the Coronation. Huge waiting lists have been registered for such accommodation to cover possible cancellations. Agencies such as Messrs. Thomas Cook & Son, Ltd., and The American Express Company report that they are unable to accept requests for bookings in hotels in London itself round about that period. They offer accommodation in boarding houses and guest houses and in hotels up to 50 miles from London.

SEA AND AIR PASSAGES.

The securing of sea passages to India during the period from April to September 1953 will be adversely affected unless a visitor holds a return ticket. A visitor not holding a return ticket may have to remain in London for a considerable period and incur charges for accommodation, which might be beyond his financial resources, whilst awaiting the provision of a passage. Movement by air will be similarly affected from East to West and *vice versa* and also to and from the United Kingdom to the Continent.

An organisation known as—

The London Hotels Information Services,
88, Brook Street; London, W. 1.

has been opened in an attempt to render free of charge all possible assistance to visitors to secure reasonable accommodation in hotels, boarding houses, and with private families. This special office does not book accommodation but advises visitors where a vacancy may be found, and the visitor then has to negotiate the accommodation direct. For a visitor to rely therefore upon the London Hotels Information Service being able to meet his need after he has arrived would be very unwise particularly as the volume of business arising from the Coronation will be such that the organisation in question may find the situation quite beyond their capacity, as they will be covering the requirements of visiting nationals from all countries of the world.

The High Commissioner, having taken a careful survey of this unfavourable position, decided that in the interests of non-official visitors, he should issue a brochure that would be of help to them in respect of their visit to Britain in 1953.

ARRANGEMENTS TO BE MADE BEFORE LEAVING INDIA.

Non-official visitors at the time of booking their sea passage or air reservation from India to England should take steps to approach one of the recognised travel agencies (a list of whom can be obtained from the Ministry of Transport, New Delhi) indicating their accommodation requirements in a hotel, boarding house, or with a private family, together with their date of arrival in the United Kingdom and secure from such agents a definite reservation before embarking on the ship. Failure to do this will create the gravest difficulty for the visitor and may place him in the position of being without accommodation of any kind.

If unable to obtain a return ticket reservation a letter from the agents or their representatives should be obtained stating that accommodation for the return journey will be available in a vessel leaving the United Kingdom on some particular date. The High Commissioner, therefore, desires to stress that in the best interests of visitors they should make all their arrangements well in advance before leaving India and be sure that they are acting through a recognised travel agency or channel that can be relied upon to handle the business.

FOOD.

Visitors whose stay will not exceed 91 days and who are stopping in an establishment with a Catering Licence, *viz.*, hotel or service flat, do not require a ration book. If the stay is likely to be more than 91 days, a ration book should be secured within two days of arrival. Coupons for the purchase of chocolate and confectionery can be obtained on personal application with passport.

ADDRESS OF FOOD OFFICE.

The Food Office for Overseas Visitors is situated at
No. 10, Cork Street,
London, W. 1.

HEALTH.

All visitors to the United Kingdom may avail themselves of free attention and treatment under the National Health Insurance Scheme.

In case of need, the hotel management can furnish the name of the nearest National Health Insurance doctor, dentist or optician. If residing in a private residence, names of the practitioners may be obtained from the nearest Post Office. The National Health Services are at present heavily worked, and as far as possible attendance should be made at the dispensary 1 of the practitioner concerned.

CLOTHING CUSTOMS DUTY IN INDIA ON GOODS PURCHASED IN THE UNITED KINGDOM.

Visitors may purchase clothing free of Purchase Tax, subject to certain conditions which can be ascertained from any store.

Duty payable at the port of entry in India, under the Indian Customs Tariff and other general information regarding such purchases, can be obtained from the Commerce Department, India House, London, W. C. 2.

MYSORE'S FIVE-YEAR PLAN OF ECONOMIC DEVELOPMENT.

(Education and Housing).

The progress of the Development Schemes in all the fields of education including the University in Mysore, during the first two years 1951-52 and 1952-53 under the State's Five-year Plan was reviewed at a meeting on 19th February 1953, convened by the Commissioner of Economic Development and Planning. The Vice-Chancellor, the concerned Heads of Departments and Secretaries to Government were present and the Minister for Education, Sri A.G. Ramachandra Rao presided.

The high-lights of the Plan are a provision of Rs. 122 lakhs for six schemes under General Education including substantial allotments of Rs. 25 lakhs for basic

education development, Rs. 40 lakhs for adult education and Rs. 10 lakhs for implementing Dr. Reddy's proposals, Rs. 32 lakhs for University Education and Rs. 71 lakhs for Technical Education. It was recorded at the meeting that the budget provision of funds fell short of the level contemplated under the Plan and the actual expenditure was about Rs. 22·6 lakhs which fell materially below the provision under the heads of 'Technical Education', and 'University'. During 1952-53, while a somewhat larger expenditure is expected to be incurred before the close of the year, there would still be a short fall from the level contemplated under the Plan. As a review of the system of education by the Education Reforms Committee in all the grades now prevailing has been taken up and it is proposed to reorganise the same to make it more effective and fruitful, Government consider that the tempo of progress in both the spheres of education, University and General, particularly under Technical Education, should be stepped up in the remaining three years of the Plan period.

No outlay under the Industrial Labour Housing Scheme was incurred in 1951-52. The Labour Housing Corporation was recently established by Government and substantial expenditure of nearly Rs. 7 lakhs is expected to be incurred in 1952-53 on the scheme. The Corporation has arranged to increase the rate of the construction of houses in future years and implement the programme under the Plan fully.

MYSORE'S FIVE-YEAR PLAN OF ECONOMIC DEVELOPMENT.

(Irrigation and Road Development).

The progress of the Development Schemes relating to Irrigation and Roads in the State during the first two years 1951-52 and 1952-53 under the Mysore State's Five-Year Plan was reviewed on 20th February 1953 at a meeting convened by the Commissioner of Economic Development and Planning. The Chief Engineer of Mysore and the concerned Secretaries to Government were present and the Minister for Revenue and Public Works, Sri Kadidal Manjappa presided.

Under the Plan, the highest priority and importance have been accorded to Irrigation development. The State's Plan includes a definite provision of Rs. 716 lakhs for 35 Major Irrigation Projects, chief of them being the Bhadra Reservoir (first stage) (Rs. 185 lakhs), Tunga Anicut (Rs. 149 lakhs) and Nugu Reservoir (Rs. 190 lakhs). As a measure of permanent relief of frequently recurring distress conditions in large areas of the State, the Bhadra Reservoir (second stage) has been included as a supplemental scheme under the Plan involving an outlay of Rs. 1,744 lakhs. A substantial financial assistance for this work from the provision made in the All-India Plan under Distress Relief measures is awaited from the Central Government.

The total expenditure to be incurred under the Plan under major Irrigation Schemes (including Bhadra Reservoir) (second stage) is Rs. 24 6 crores, which though appreciable, is not too large and underlines the importance attached by Government to Irrigation Development in the State.

The provision in 1951-52 in the Budget was Rs. 89·18 lakhs against the allotment of Rs. 120·50 lakhs, the actual expenditure being Rs. 87·48 lakhs. Again for 1952-53, the budget provision is Rs 110·97 lakhs as against the sum of Rs. 149.50 lakhs allotted in the Plan, and the expenditure in 1952-53 up to the end of September 1952 was Rs. 46·82 lakhs.

There is a provision of Rs. 253·00 lakhs for six minor Irrigation Schemes under Food Production Programme which include land reclamation, restoration and desilting of tanks, construction and improvement of channels and irrigation development in the Malnad. The budget provided Rs. 78·15 lakhs against Rs. 72·80 lakhs allotted in the Plan, the expenditure being Rs. 77·54 lakhs. In 1952-53, a sum of Rs. 60·62 lakhs was provided in the budget against Rs. 59·20 lakhs in the Plan, while the expenditure to end of September 1952 was Rs. 23.7 lakhs.

Six schemes have been included in the Plan for Road Development, providing Rs. 291.40 lakhs therefor. During 1951-52, the allotment in the Plan was Rs. 75·00 lakhs while the budget provided Rs. 31.24 lakhs, the actual expenditure being Rs. 23·43 lakhs. In 1952-53, the budget provides Rs. 51·37 lakhs as against the allotment of Rs. 67·00 in the Plan.

It was noted at the meeting that while the budget provision for the Irrigation Development Works was substantially below the level contemplated under the Plan, the progress of execution of both major and minor irrigation schemes was satisfactory. Government, however, considered that the tempo of progress of the Road Development Schemes was not adequate and desired that it should be stepped up in the remaining three years of the Plan period. It was also noted that the Distress Relief Committee appointed by the Government of India which visited Mysore State recently have recommended as an immediate interim relief the grant of Rs. 68·65 lakhs for the Irrigation Works in the distress areas of the State.
